Dear Mr. Maksymiec:

As you bring to a close more than thirty years of service to your country, I want to join your friends and co-workers in wishing you well and hoping that you find the years ahead filled with enjoyment and satisfaction.

It takes the conscientious efforts of many people to do the important work of this Agency. You leave with the knowledge that you have personally contributed to our success in carrying out our mission.

May I express to you my appreciation and extend my best wishes for the years ahead.

Sincerely,

## NOTICE OF RATING

APPLICANT MUST FILL IN ALL PLACES DOWN TO HEAVY BLACK LINE

EXACT TITLE OF EXAMINATION

TECHNICIAN IN ENGINEERING & PHYSICAL SCIENCE (GA-7-10)

DATE OF EXAMINATION

NAME

Mr. Eusebio A. Makyniec

ADDRESS

4716 Asbury Place, N. W.

CITY, STATE  
AND ZIP CODE

Washington, D. C. 20016

This is not a notice of appointment. It is a record of your rating. It is important that you keep it. It is noted that your application was not rated for any position with a lower entrance salary than that which you indicated thereon.

Your Rating is — ELIGIBLE

- ☐ This examination is not rated on a numerical basis  
☒ Your numerical rating is:

GS-10 100  
GS-11 96

Your Rating is — INELIGIBLE for the reasons checked below:

- ☐ The lowest acceptable salary indicated on your application is higher than the salary shown on our announcement.  
☐ You did not pass the written test. All competitors must attain an earned rating of 70 without regard to veteran preference. When an applicant's paper falls below the passing mark it is not scored further. Ineligibles do not receive a numerical grade.  
☐ Your application does not show that you meet the minimum requirements as to experience (or education) which were specified in the examination announcement.  
☐ Your eligibility is suspended pending your furnishing the Commission proof of correction of physical condition, as shown on the attached notice.  
☐ Failed to reply to official correspondence.  
☐

IF THERE IS A CHECK BELOW, IT INDICATES THE AMOUNT OF VETERAN PREFERENCE CREDIT INCLUDED IN YOUR RATING

- ☐ 5 POINTS — IF YOU ARE APPOINTED YOU WILL BE REQUIRED TO FURNISH TO THE APPOINTING OFFICER EVIDENCE OF HONORABLE SEPARATION FROM THE ARMED FORCES

☒ 10 POINTS

If you have received an eligible rating, be sure to read the important message on the back of this form.

## IMPORTANT MESSAGE TO ELIGIBLES

### YOU HAVE RECEIVED AN ELIGIBLE NOTICE OF RATING. WHAT DOES THIS MEAN?

**IT MEANS THAT:** Your name has been placed on the list of persons who have passed this examination, in its proper relative standing. This list of eligibles, or register, is kept by the office whose name and address appears in the lower right-hand corner on the other side of this notice.

**IT MEANS THAT:** When your name is reached on the register, you will be considered for the type of jobs for which you have qualified, (in the geographical area) covered by the examination. (When a Federal agency requests the Commission to supply the names of eligibles, the names of the three eligibles at the top of the register are certified to the agency for consideration.) The agency appointing officer may choose any one of these three persons, so long as he complies with the Veterans' Preference Act of 1944, as amended.

**IT MEANS THAT:** Your prospects for getting a job from this examination cannot be predicted. They depend upon how many vacancies may occur to be filled by eligibles, and on your relative standing on the register. Your name will be certified for consideration as it comes within reach and as requests for eligibles are received. (If you are not selected, your name will go back on the register in its proper relative standing, to be considered again when within reach until the register is terminated.)

**IT MEANS THAT: YOU MUST INFORM THE OFFICE WHICH ISSUED THIS NOTICE OF RATING OF ANY CHANGES IN YOUR ADDRESS OR IN THE CONDITIONS UNDER WHICH YOU WILL ACCEPT APPOINTMENT. SEND ANY NEW INFORMATION CONCERNING YOUR ADDRESS OR AVAILABILITY TO THE OFFICE WHOSE NAME AND ADDRESS IS SHOWN IN THE LOWER RIGHT-HAND CORNER ON THE OTHER SIDE OF THIS NOTICE, AND REFER TO THE TITLE OF THE EXAMINATION AND THE RATING RECEIVED.**

### ADDITIONAL INFORMATION

1. Any offer of appointment or inquiry as to availability which you may receive from a Federal agency will show whether you are being considered for a limited temporary, a career-conditional, or a career appointment.

2. If, when you are considered for appointment, you signify that you are not available or you fail to reply to a communication, your name will be removed from the register until you satisfactorily explain your reasons and specify the conditions under which you would be willing to accept any appointment. When you are unable to accept any appointment you should request that your name be suspended from the register until you are again able to accept an appointment. Requests for restoration to one register while it is still in use, changes in availability, or transfer of eligibility, will be acted on without further notice to you.

3. If you are now employed by the Federal Government and have received an eligible rating, show this notice to your personnel officer. He should be aware of your eligibility on this examination. **THIS DOES NOT RELEASE YOU FROM YOUR RESPONSIBILITY TO KEEP THE OFFICE MAINTAINING**

### YOUR ELIGIBILITY INFORMED OF CHANGES AS MENTIONED ABOVE.

4. A competitor who received an eligible rating may, under certain conditions, have his eligibility transferred from the register of one civil service office to a similar register in another civil service office.

A competitor who wishes to have his eligibility transferred should send his request to the office where his eligibility is maintained.

Termination will then be made, and the competitor will be notified, as to whether his eligibility can be transferred.

5. A register established from an examination held in order to fill a specific type of position at a stated salary may also be used to fill vacancies in related positions or at a lower salary. When you accept a career-conditional or a career appointment, your name will be removed from all registers established as a result of this examination. Until your name is removed, your willingness to accept a lower salary will not affect your eligibility for positions at a higher salary.

U. S. GOVERNMENT PRINTING OFFICE: 1946 O-794-130

If you are not appointed or the register is not officially terminated earlier, your eligibility from this examination will be in effect for a period of 18 months only unless you submit up-to-date information about your qualifications before that time by letter, Standard Form 57 or Form 57A; however, such information will not be accepted if you have had eligibility for less than 1 year. The date of issue which appears on this "Notice of Rating" is that on which your period of eligibility began.

UNITED STATES CIVIL SERVICE COMMISSION

Mr. Myrosław A. Mahysniak

Date: 11/1/73

A preliminary review has been made of the application(s) which you submitted for consideration under Announcement No. 513, Mid-Level Positions in Administrative, Staff, and Technical Services. The experience and training described in your application appear acceptable under the general terms of the announcement. You will be considered for positions for which your experience and training qualify you at grade: GS-11.

However, applicants who appear to meet the general announcement requirements for a particular grade level are not thereby qualified for all positions at that grade. When a government agency requests names of eligibles to consider in filling a vacancy, applications showing skills and backgrounds that match the requirements of the job to be filled are carefully reviewed. The best qualified candidates are referred for consideration, ranked in accordance with their relative qualifications with due regard to Veterans Preference.

As you know, applicants may establish eligibility with any two offices maintaining lists under this announcement. In accordance with your request, your eligibility is on the list(s) maintained in the city or cities indicated below:

Washington, D.C.

Please see reverse for complete addresses and other important information.

MEMORANDUM FOR: Chairman, Career Service Board, NPIC  
 THROUGH : Secretary, Career Service Board, NPIC  
 SUBJECT : Recommendation for Promotion

1. NAME: Maksymiec, Myrosław Andrew

2. POSITION TITLE AND PRESENT ASSIGNMENT:

Photog (Gen) occupying Physical Scientist Slot, assigned to the Exploratory Development Laboratory Branch of the Plans and Development Staff.

3. PRESENT GRADE, TIME IN CIA:

GS-7/3, EOD Date November 1961

4. EDUCATION AND TRAINING: High School

5. EXPERIENCE:

Mr. Maksymiec retired as a Master Sergeant in July 1961, after 20 years of Army photographic experience. He worked in PSD/PLB from November 1961 until 15 September 1963. On this date he was assigned to the Exploratory Development Laboratory Branch of the Plans and Development Staff on a 90-day trial basis. This period was extended to January, 1964 at which time the assignment was made permanent.

00000

SUBJECT: Recommendation for Promotion

6. JUSTIFICATION FOR PROMOTION:

Mr. Makymiec's primary experience has been in practical photography. Since joining the Exploratory Development Laboratory Branch, he has learned the theoretical side of photography and combined this with his already extensive knowledge of the photographic process. He has carried out several investigations which indicate a natural bent for scientific methods. After initial briefing, he requires little, if any, supervision. His maturity is a distinct asset in his work, where extreme attention to detail and good judgement are absolute necessities. He exhibits a willingness to work for the group, no matter the hours, and cooperates and works well with others.

His responsibilities and quality of effort are deserving of more than his current GS-7 status. It is therefore recommended that Mr. Makymiec be promoted to GS-8.

Dear Mr. Maksymiec:

This letter is in response to the comment you made to the Director on Alumni Day, 26 April 1975, concerning a special medallion for NPIC employees who participated in the Cuban missile crisis.

I have had the appropriate records reviewed. The Certificate of Commendation you and other NPIC employees received was awarded by direction of the President in recognition of the meritorious service performed.

It is hoped that the lack of a medallion to accompany this certificate will in no way detract from the contribution you made during this period of crisis.

Sincerely,

/s/John E. Blake

MEMORANDUM FOR: Director of Personnel

Fred:

1. The facts behind the question raised with the Director by Mr. Maksymec on Saturday, 26 April, are, according to him, as follows.
2. After NPIC had done its fine work during the Cuban missile crisis it appears that two different types of recognition were given. Determinations were made first on certain individuals whose contributions were such that they should receive an Agency medal award. A second group of some 200 were then identified for their level of contribution and received some kind of certificate from the White House signed by the President. Mr. Maksymec was in the latter group and espouses the cause that a "special medallion" should have been given along with the White House certificate. Mr. Rob Gaynor also spoke to me on this matter on Saturday, and has a good recollection on the whole matter.
3. Will you do what you can on the matter and prepare me a letter to be sent to Mr. Maksymec?

MEMORANDUM FOR THE RECORD

SUBJECT: Mr. Myroslaw Maksymiec - Retired Employee

The meeting with Mr. Maksymiec on 6 May 1975 was to satisfy his request to review his official personnel file (this matter was being treated in the manner of a request under the Freedom of Information Act). Location: Main Reception Interview Room at Headquarters Building - 3 p.m.

The duration of the meeting was one (1) hour of which time Mr. Maksymiec used approximately 7 to 8 minutes to quickly thumb thru the OPF. It is my impression that he was surprised: 1) we were allowing him to see all the material in the file (he described vividly, a 1971 unpleasant encounter with Mr. Echols, the Director of Personnel, who refused to show him a document and would only read to him a small portion from it - this caused his request and subsequent interview with the DCI, Mr. Helms), and 2) at the reality that the file contained nothing actually derogatory (he stated he had seen and signed the fitness reports so these represented nothing unknown).

The major portion of the time was consumed in my listening to his evaluation and assessment of the various supervisors and co-workers at NPIC and their shortcomings. He regaled me with much of his background and history with the military and initial application and entrance on duty with the Agency; his personal acquaintance and relationships with notables - a former American Ambassador to Ethiopia, Joseph Simonson, the Emperor of Ethiopia, several Generals and Congressional personalities, Mr. Helms and Mr. Arthur Lundahl, and his membership in the Explorer Club.

Presently he is Vice President for Sales of the Environmental Coating Industries Corporation located in Annandale, Virginia - the company removes corrosion and stains from surfaces. He offered the company services at the 1974 Alumni session, to clean the stains from the Nathan Hale statue at the front of the building, at a cost of \$300. He plans to follow-up on his proposal, since he has not heard anything from the Agency.

He mentioned that Mr. Blake, at the direction of the DCI, (1975 Alumni Day) was to explore and advise him (Maksymiec) of the possibility of striking and issuing a medal to about 200 Agency personnel (of whom he is one) for their participation in certain aspects of the 1962 Cuban crisis.

Our meeting ended with Mr. Maksymiec indicating he had no intention of "going after anybody," but he was curious what was in his file, and that was the basis for asking to see it.

NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

During the past reporting period, Mr. Maksymiec's responsibilities were more pointedly directed towards the requirements of a laboratory technician as described in the position description and less towards his previous utilization as a photographer. A conference was held with him on 15 June to explain the need for this re-direction and a memo ATB 147/70 dated 15 June was prepared and furnished to him detailing of performing these duties and was anxious to stop being thought of as a photographer and welcomed the opportunity to move into a more technically oriented activity. The specific duties outlined are listed in Section B of this report.

It was expected that there would be a learning period during which his proficiency would gradually increase in these new responsibilities. However, progress has not been as rapid as had been hoped due to what appears to be a lack of initiative on his part coupled with severe emotional outbursts against his immediate supervisor and other Center personnel. The latest of these occurred on 28 August in which he used abusive language in the presence of other Branch personnel including the Branch Chief against his Section Chief. This necessitated a written letter of reprimand and his transference to direct supervision by the Branch Chief, and as of 5 October 1970, to another Section within the Branch.

The ratings of M in Duties 1 and 2 of Section B reflect primarily the subject's reluctant participation in data collection and his lack of initiative in learning the operation of the microdensitometer. In duties 4, 5, 6, he has required a maximum amount of supervision which has resulted in senior personnel doing the work.

<p>I concur with the rater's comments. We have been making every effort to aid Mr. Maksymiec in becoming an asset to RED as a laboratory technician. To date, there has been little noticeable progress; in fact, the temper outbursts mentioned above indicate a deteriorating condition. Unless this situation improves, it may be necessary to recommend termination action.</p> <p>As I have stated in previous comments, it's unfortunate that he cannot find a position which takes advantage of his expertise in photography, since this would go a long way to resolving his problems.</p>

themselves. It may be argued that this has not provided him with sufficient first-level supervision to allow him to learn the skills required to perform these duties.

To insure that he is given every opportunity to perform in his new section, written assignments and accomplishments will be submitted on a daily basis.

In line with previous reports, it is still felt that Mr. Maksymiec is essentially mis-assigned as he is an expert photographer and should be assigned in some area where his skill can be utilized to its fullest extent.

Mr. Maksymiec is basically an excellent photographer. <sup>Nov 3 1 21 PM '69</sup> He usually lends a hand as a D&E Technician. Unfortunately, he must be rated according to his job classification as a D&E Technician, and he suffers accordingly.

In his previous fitness report, he was alerted to the need to direct his interest toward becoming a technician and away from his photographic activities. He has not completely heeded this advice.

Two distinct training activities were advised for assisting him in making the transition: a course of instruction in math necessary to discharging technician's duties, and on the job project work. The former persisted for only a short time, due presumably to his lack of ability and/or interests. He improved very little from this instruction. His assistance on a project for developing an ammonia leak detector was effective, and the project was a success; however, his thin knowledge of the scientific method diminished his appreciation of the concept of experimentally controlled variables. In short, he had to be watched closely to insure that his well-meaning "Improvement" did not disrupt the experimental plan. His interest and cooperation in this program were commendable, and his overall project performance was adequate.

Mr. Maksymiec is basically mis-assigned. His abilities and interests lie in the photographic field where he does a very commendable job. However, the Laboratory needs the services of properly trained technicians to assist the physical scientists in their research efforts. Since Mr. Maksymiec's expertise is not in this area, it is again recommended that suitable employment as a photographer be found for him.

NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

Mr. Maksymiec's ability as a staff photographer is un-diminished. His photographic ability is considered by all in the Center as excellent.

It has been pointed out to Mr. Maksymiec that the laboratory does not have a basic requirement, or a slot for a photographer, and since he is carried on a D & E technician, he should be more qualified than he is in other aspects of photographic and scientific research other than straight "picture taking", as he does not have the basic foundation either in formal education or experience to perform successfully as a D & E technician. This lack of qualification in this area can be partly explained by two factors: (1.) Mr. Maksymiec's position description was recently changed due to the reorientation of the laboratory's primary mission and function; and (2.) Because of his previous photographic responsibilities he did not have the opportunity to gain the new skills required to fulfill his new duties as a D & E technician. Mr. Maksymiec will have to be re-trained from a photographer into a D & E technician so that he can contribute more to help solve the laboratory assigned tasks.

Mr. Maksymiec still had problems in his relationship with other members of the laboratory during this reporting period. It appears to have been about his concern with his position in the laboratory grade structure and his feeling that he was "ignored" by senior members of the laboratory. Mr. Maksymiec seems to have had a feeling that members of the laboratory including his Chief did not recognize his ability as a photographer and pay suitable deference to his age.

COMMENTS OF REVIEWING OFFICIAL		
<p>I concur in the ratings and comments of the rating officer. In the latter part of the rating period the activities of the Exploratory Laboratory were being changed from ad hoc research projects to a directed program of planned investigations against NPIC and community problems. This change in activities reduced the freedom of choice in tasks to be accomplished and increased the demand for versatility in laboratory personnel. The lack of freedom and the assignment of unfamiliar tasks are distasteful to Mr. Maksymiec since he doubts that these activities will provide the personal recognition he has enjoyed for many years as an outstanding photographer.</p>

Section C Continued

He has also had serious disagreements with a summer intern and another member of the laboratory which had to be settled by conferences with the laboratory chief. A major disagreement with the Laboratory Chief took place recently which resulted from his feeling that he had been treated unfairly without consideration for his age, knowledge and training.

As a result of these problems, a series of conferences with Mr. Maksymiec and senior members of the division were held in order to find a possible solution for his problem. Because of these meetings, an in-house training program has been initiated for Mr. Maksymiec. It is hoped that this will do much to alleviate his feelings of repression and make him a contributing member of the laboratory once again.

Section D Continued

In spite of the reduction in need for Mr. Maksymiec's primary skills, he has expressed a desire to continue his present assignment. Therefore, a program of retraining has been instituted to broaden his knowledge and increase his versatility in carrying out laboratory investigations. Mr. Maksymiec is a hard working, dedicated employee and there is every reason to expect that he will try hard to overcome his deficiencies. However, his age, limited education, previous success in photography, and lack of knowledge in scientific methods pose serious obstacles to be overcome. His present attitude is characterized by his own statement, "Show me how, and I will do it."

Mr. Maksymiec continues to excel in his primary duty as staff photographer. He processes his own photography and the finished product is consistently outstanding.

He cooperates most willingly with other members of the staff in assisting them with the practical photographic aspects of their projects.

There have been a few minor personality conflicts on procedural matters related to job assignments between Mr. Maksymiec and both staff and non-staff personnel, which have been reported to his laboratory chief and the executive officer, TDS. It is believed that this is due to his strong desire to excel at his job. This problem has been discussed with Mr. Maksymiec and it is expected that he will avoid such occurrences in the future.

During this reporting period Mr. Maksymiec has satisfactorily completed a night school course in technical reading and writing at Montgomery Junior College and is currently pursuing a course in photography at American University. He is to be highly commended for this continuing effort to train himself for a more responsible position.

He works closely with other members of the staff and contributes to the success of the laboratory.</p> <p>His duties require him to maintain and develop many skills in the field of photography. He carries out these duties and other responsibilities in a professional manner and with a minimum of supervision.</p> <p>As senior laboratory technician he provides guidance for his junior technician. His ability to train this man in the field of photographic technology is considered superior.</p> <p>Mr. Maksymiec recently completed a review course in "Basic Grammar." This course pointed out his main difficulties in written expression, and his teacher suggested methods for overcoming these difficulties. As a result of this course and after a consultation with Mr. R. B. Cheatham of the Educational and Psychological Service Bureau, Georgetown University, Mr. Maksymiec plans on taking a special English course at Montgomery Junior College this fall. This course concentrates on the fundamental of reading and writing. When he successfully completes this English course, he expects to continue his education with the ultimate goal of receiving his Bachelor's degree. Mr. Maksymiec is ambitious and hopes to train himself for a more responsible position. He is to be commended for this effort, and he will be given all possible aid within the laboratory to help him fulfill his educational program.</p>

TRAINING REPORT Grammar and Punctuation		(20 Hours Part-Time)	No. of Students 23	Date of Course 16 - 26 May 1966		
Section I IDENTIFYING INFORMATION						
Name of Student	DOB	DOB Date	Office	GE	ED	
MAKSYMIEC, Myrosław A.	1917	November 1961	NPIC	08	IP	
Section II COURSE OBJECTIVES - CONTENT AND METHOD						

This course is taught 2 hours a day for 2 weeks. A pretest is given to determine the student's proficiency. The course is conducted through lectures, examples, and exercises; and the evaluation is based on a series of quizzes and a final examination.

The objectives of the course are the review and application of basic grammar principles and fundamental punctuation rules.

Section III METHOD OF EVALUATION

Student achievement is judged on the basis of competence in understanding and applying the principles and rules presented in the course objectives.

Section IV ACHIEVEMENT RECORD

This trainee's rating is marked by an asterisk.

Subject	Poor	Fair	Satisfactory	Excellent
Grammar	3*	3	11	6
Punctuation	5*	9	6	2

EXCELLENT - - Thorough knowledge of material presented and above average performance in meeting course goals.

SATISFACTORY - average knowledge of material presented and adequate performance in meeting course goals.

FAIR - - - - - borderline knowledge of material presented and limited performance in meeting course goals.

POOR - - - - - inadequate knowledge of material presented and unsatisfactory performance in meeting course goals.

Section V COMMENTS

This review course in grammar and punctuation was too advanced for Mr. Maksymiec. He needs an elementary course on the English fundamentals preferably on a tutorial basis before he can adequately apply the rules of punctuation and grammar to his work.

In a personal conference with Mr. Maksymiec, the instructor analyzed his weaknesses in grammar and punctuation and suggested ways in which he might improve his performance in these areas.

EDUCATIONAL AND PSYCHOLOGICAL  
SERVICES BUREAU

August 24, 1966

Name: Mr. Myroslaw A. Maksymiec

Mr. Myroslaw A. Maksymiec, age 49, came to this Bureau on August 1, 1966, in connection with the Veterans Administration's educational and vocational counseling program for former servicemen. Mr. Maksymiec is married, has two children, ages five and eight, and is employed by a federal governmental agency as a photographic research technician (GS 09/3). He retired from the United States Army in 1961 in the grade of Master Sergeant after serving for over 20 years with primary duties as an intelligence photographer. His education includes eight years of formal schooling, a high school completion equivalence certificate, and additional courses with the Graduate School, Department of Agriculture, and the United States Armed Forces Institute. Mr. Maksymiec stated that he was interested in further education at the college level in order to improve himself both personally and professionally in a field related to his present vocational activities.

In addition to several conferences with the undersigned, Mr. Maksymiec was administered a battery of educational and vocational tests. This report contains the results of these conferences and tests, the results of which should not be interpreted either as conclusive or final. They should be considered primarily as indications of various psychological factors that should be seriously considered by Mr. Maksymiec in making decisions concerning his educational and vocational goals.

In order to determine Mr. Maksymiec's fields of vocational interest he was given the Kuder Vocational Preference Record. When compared to a representative group of men in the national population, Mr. Maksymiec indicated that his interests are significantly similar to persons who are engaged in computational, scientific, and literary activities. Men who have interests similar to Mr. Maksymiec's are found in various engineering fields, astronomy, seismology, economics, psychology, and technical publications writing. These fields are closely allied to his present occupational endeavors.

On the Educational Interest Inventory, a device that is beneficial to an individual in discovering his interests in various fields of study, Mr. Maksymiec's responses indicated that his study interests are very high in physics; high in engineering, chemistry, earth science, and history and political science; high average in communication, zoology, and mathematics; and average in psychology. The areas in which he showed low to average interest were music, education, industrial arts, agriculture, botany, sociology, literature, art, business administration, and economics.

Name: Myroslaw A. Maksymiec

Mr. Maksymiec also took the Army General Classification Test, Civilian Edition, to find out his overall level of mental ability. His score revealed that he exceeds approximately 78 percent of adults in general mental capacity as measured by this instrument. A safer evaluation of his performance is that he is probably in the upper 25 percent of adults regarding his global intelligence.

On the Michigan Vocabulary Profile Test, an instrument that attempts to measure a person's intellectual interests as well as the amount of information he has retained in various areas of knowledge, Mr. Maksymiec indicated, when compared with college freshmen, that he exceeds approximately 50 percent in his knowledge of human relations, 69 percent in government, and 67 percent in the physical sciences. On the lower side, he does as well or better than 24 percent in his familiarity with commerce, 31 percent in mathematics, and 24 percent in fine arts.

In order to find out Mr. Maksymiec's ability to handle English, a basic necessity for one to perform well in college, he was given the Cooperative English Tests. When compared to college freshmen, he showed that he exceeds from 52 percent to 78 percent in his understanding of vocabulary; from 5 to 17 percent in his ability to comprehend what he reads; from 2 to 11 percent in his speed of comprehension; and from 18 to 36 percent in his overall ability to know and understand what he reads under timed conditions. In his skill to express himself properly in English, he exceeds from 1 to 6 percent of college freshmen. When reading and expression are combined into one score, it may be said that Mr. Maksymiec exceeds from 6 to 12 percent of college freshmen in his overall usage of English.

The results of the above tests indicate that Mr. Maksymiec has made the most of his learning opportunities both within and outside the military service. Although he completed only eight years of school, he has acquired a considerable amount of knowledge by observation, reading, and personal experience. In spite of his broad experiences and acquired knowledge, it will be necessary for him to improve his reading and writing skills in English, however, before he begins college courses. Although he manifests a high interest in engineering and scientific fields, he should probably not consider these fields as majors because of his deficiency in mathematics. It is believed the skills in English can be developed but it is doubtful if the mathematical deficiencies can be overcome sufficiently to major in a scientific area. It is probably advisable, therefore, for Mr. Maksymiec to consider one of the social sciences as a college major. His background in photography and military subjects, combined with a college major in an appropriate social science, would probably provide him with the necessary qualifications to become a geographer or an intelligence analyst in government service.

It is understood that Mr. Maksymiec has enrolled in Montgomery Junior College, Takoma Park, Maryland, for the 1966 fall semester and that he will take a special English course concentrating on the fundamentals of reading

Name: Myroslaw A. Maksymiec

and written expression. After he completes this instruction, he might consider working for an associate of arts degree in a social science at this junior college with the ultimate goal of transferring later to a four-year college to work toward a bachelor degree.

I have appreciated knowing and talking with Mr. Maksymiec and I trust he will contact this Bureau if he requires further counseling assistance. My best wishes go with this report in whatever plans Mr. Maksymiec makes concerning his future plans and goals.

## SECTION C

## NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide basis for determining future personnel action. Number of performance of managerial or supervisory duties must be described, if applicable.

Mr. Maksymiec, <sup>Jun 18</sup> in serving as the senior laboratory technician, sets a fine example for those whose responsibilities are similar and for the younger professionals for whom he provides photographic laboratory services. As a photographer he possesses rare compositional skills; his photographs of equipment for report and briefing purposes are exceptionally well-crafted, the finishing of surpassing quality. His work is careful, thorough, painstakingly accurate, and professional by all standards.

After more than a year in his present position, he feels more relaxed and self-assured. He asserts his views and ideas more competently and has become an integral and important part of this Laboratory's operations. Mr. Maksymiec works exceptionally well with others, accepts responsibility freely and requires a minimum of direction. Most of his assignments come as discretionary orders, with complete freedom to utilize his own talents and inclinations towards the solution of his assigned problems. He continues to improve his capabilities, and is presently enrolled in a Department of Agriculture course in the fundamentals of photographic color processing, at his own request.

Mr. Maksymiec's one major weakness lies in the difficulty with which he writes reports. The ability to communicate ideas and results of investigations clearly, through written reports, is a necessary attribute of laboratory branch members, and Mr. Maksymiec must concentrate extra effort to improve his performance in this regard. During the next reporting period, he will be given assistance to improve his reporting capabilities.

Mr. Maksymiec's work, conduct and attitude are satisfactory and commendable.

Manner of performance of managerial or supervisory duties must be described, if applicable.</p>				
<p>Mr. Maksymiec's background and experience lie in practical photography, about which there is extremely little he does not know. He transferred from PSD/PLB primarily because there was little opportunity to use this experience, and because the advancement potential appeared to be minimal.</p>				
<p>From the day of his transfer, Mr. Maksymiec has performed capably. Much of the work has been new to him, requiring him to learn and master many aspects of theoretical photography. He has acquired proficiency in the use of laboratory measuring instruments. He has applied himself and learns rapidly, with good retention. His frame of mind has improved, and this is manifested in a more relaxed, yet completely involved approach to his work. He works well with other and cooperates fully in all group problems. He accepts responsibility and requires direction of effort only in those theoretical areas where he has no experience. When responsible for the expenditure of funds, he exhibits a commendable cost-consciousness.</p>				
<p>He recently took examinations for the purposes of completing his High School education, and has attended mathematics classes at Fort Myer. This is an additional indication of the interest and feeling for his job, which is manifested by a consistently proficient level of output. He is a valued member of the Exploratory Development Laboratory Staff.</p>

EDUCATION				
High School equivalent certificate; completed a course in color photography in January 1966 (6 credit hours) taken at the Department of Agriculture Graduate School.				
EXPERIENCE				
Mr. Maksymiec retired as a Master Sergeant in July 1961 after 20 years of Army photographic experience. He has been with the Center from November 1961 and with the Exploratory Development Laboratory Branch of the Plans and Development Staff since 15 September 1963. He is the senior technician for the laboratory.				
JUSTIFICATION				
Mr. Maksymiec's laboratory skills are of the highest professional quality. His duties as the senior laboratory technician require him to work closely with the physical scientists and by himself on various projects which require many practical and some theoretical skills. He conducts experimental laboratory investigations related to the photographic process, develops special techniques, and constructs supporting equipment. He carries out his assignments with little or no supervision and works well with others in the laboratory. He is an important and valued member of the Exploratory Development Laboratory Branch. It is felt that Mr. Maksymiec is doing the work of a higher grade; therefore, it is recommended that Mr. Maksymiec be promoted to grade GS-09.

18 February 1963

TO: Myrosław Maksymiec

The President of the United States has formally recognized the vital contribution of the members of this organization, during the critical period last year, by awarding a Presidential commendation to the National Photographic Interpretation Center.

A copy of the commendation which is attached will be made part of your official personnel file, and a certificate of commendation is being presented to you for your retention.

Once again let me add my expression of appreciation for your efforts which enabled all of us to merit this achievement.

FOR OFFICIAL USE ONLY

The President of the United States takes pleasure in commending the NATIONAL PHOTOGRAPHIC INTERPRETATION CENTER for outstanding achievement and service to the security of the United States and the Free World during a time of grave international crisis.

CITATION:

"The National Photographic Interpretation Center distinguished itself by exceptionally meritorious service during the period from 1 May 1962 through 31 December 1962. During the period of international crisis, the Center served as the focal point for the receipt and immediate analysis of intelligence photography and was instrumental in identifying the nature and magnitude of the threat to world peace. Although working under great stress, personnel of the Center were able to carefully analyze and process a massive volume of critical intelligence material, thereby enabling the United States to respond immediately and effectively to the developing threat. The outstanding achievement of the members of the National Photographic Interpretation Center is in keeping with the finest traditions of service to the United States."

All Armed Forces personnel assigned or attached to the Center and performing duty at any time during this period are hereby authorized to wear the emblem or ribbon for the following decoration, as appropriate to their service:

Army	- Meritorious Unit Commendation
Navy	- Navy Unit Commendation
Air Force	- Air Force Outstanding Unit Award

All members of the Center will be presented an appropriate certificate in recognition of their outstanding achievement and will have this commendation made a matter of record in their official files.

Dear Mr. Lundahl:

While I would like to make public the truly outstanding accomplishments of the National Photographic Interpretation Center, I realize that the anonymity of an organization of your high professional competence in the intelligence field must be maintained.

I do want you and your people to know of my very deep appreciation for the tremendous task you are performing under most trying circumstances. The analysis and interpretation of the Cuban photography and the reporting of your findings promptly and succinctly to me and to my principal policy advisers, most particularly the Secretary of State and the Secretary of Defense, has been exemplary.

You have my thanks and the thanks of your government for a very remarkable performance of duty and my personal commendation goes to all of you.

Sincerely,

Mr. Arthur C. Lundahl

WASHINGTON 25, D. C.

OFFICE OF THE DIRECTOR

2 November 1962

MEMORANDUM FOR: Director, National Photographic  
Interpretation Center

SUBJECT : Commendation

1. As Director of Central Intelligence and on behalf of the entire intelligence community as well as the United States Government, I wish to commend you and the personnel under your command for the outstanding work you have been performing, especially during the past four months of the Cuban buildup.
2. Your analysis and interpretation of the Cuban photography and the manner in which you reported your findings to the President, his principal policy advisors, most particularly the Secretary of State and the Secretary of Defense, and the entire intelligence community have been of the highest order.
3. I have full knowledge of the tremendous pressures and long working hours with which NPIC was confronted. I regret that the anonymity required of a professional intelligence agency such as yours prevents public acknowledgment of NPIC accomplishments. You and your people should take great pride in your accomplishments as well as in your ability to perform them without public acclaim.

NAME	PROPOSED ASSIGNMENT
MAKSYMIEC, Myroslaw Andrew	PIC Photographer

1. This report presents information that may be helpful in arriving at selection/placement decisions. The comments are necessarily tentative and in terms of general assets and liabilities. A DETAILED DISCUSSION OF AEE INFORMATION IN TERMS OF SPECIFIC CONTEMPLATED ASSIGNMENTS MAY BE ARRANGED BY CALLING X3052.

2. AEE Comments: Mr. Makymiec performs poorly on various measures of intellectual ability. (He evidently has a foreign language background which has affected his performance particularly on the verbal tests.) His knowledge of contemporary world-affairs approaches an average rating in comparison with Agency professional personnel. He also performs fairly well on a test of arithmetic problems. He would appear best suited for an essentially technician level position, which presumably the proposed "Photographer" position would be.

## APPOINTMENT AFFIDAVITS

**IMPORTANT.**--Before swearing to these appointment affidavits, you should read and understand the attached information for appointee

CENTRAL INTELLIGENCE AGENCY  
(Department or agency)

(Bureau or division)

WASHINGTON, D.C.

(Place of employment)

I, PROGRIAN APPOINTMENT, do solemnly swear (or affirm) that--

### A. OATH OF OFFICE

I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely without any mental reservation or purpose of evasion; that I will well and faithfully discharge the duties of the office on which I am about to enter, **SO HELP ME GOD.**

### B. AFFIDAVIT AS TO SUBVERSIVE ACTIVITY AND AFFILIATION

I am not a Communist or Fascist. I do not advocate nor am I knowingly a member of any organization that advocates the overthrow of the constitutional form of the Government of the United States, or which seeks by force or violence to deny other persons their rights under the Constitution of the United States. I do further swear (or affirm) that I will not so advocate, nor will I knowingly become a member of such organization during the period that I am an employee of the Federal Government or any agency thereof.

### C. AFFIDAVIT AS TO STRIKING AGAINST THE FEDERAL GOVERNMENT

I am not participating in any strike against the Government of the United States or any agency thereof, and I will not so participate while an employee of the Government of the United States or any agency thereof. I do not and will not assert the right to strike against the Government of the United States or any agency thereof while an employee of the Government of the United States or any agency thereof. I do further swear (or affirm) that I am not knowingly a member of an organization of Government employees that asserts the right to strike against the Government of the United States or any agency thereof and I will not, while an employee of the Government of the United States or any agency thereof, knowingly become a member of such an organization.

### D. AFFIDAVIT AS TO PURCHASE AND SALE OF OFFICE

I have not, nor has anyone acting in my behalf, given, transferred, promised or paid any consideration for or in expectation or hope of receiving assistance in securing such appointment.

### E. AFFIDAVIT AS TO DECLARATION OF APPOINTEE

The answers given in the Declaration of Appointee on the reverse of this form are true and correct.

TO THE HONORABLE  
MEMBER OF CONGRESS  
JAMES H. HANCOCK  
WASHINGTON, D. C.

Dear Mr. Hancock:

I am very pleased to hear from you and to learn that you are interested in the work of the National Aeronautics and Space Administration. I am sure that your interest will be well rewarded by the many achievements of this Administration in the field of space exploration.

The National Aeronautics and Space Administration is a very young organization, but it has already achieved many remarkable feats. It has sent men into space, it has landed men on the moon, and it has launched many scientific satellites into orbit around the earth. These achievements are a testament to the power of human ingenuity and the determination of the American people to explore the unknown.

I am sure that you will be very interested in the many plans and programs of the National Aeronautics and Space Administration. I am sure that you will find many opportunities to contribute to the work of this Administration. I am sure that you will find many opportunities to help us in our quest for knowledge and discovery.

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. Once the problem is identified, the next step is to define the objectives and goals of the project. This helps to clarify what needs to be achieved and provides a clear direction for the team.

3. The third step is to develop a plan or strategy to address the problem. This involves breaking down the problem into smaller, manageable tasks and determining the resources needed to complete them.

4. The fourth step is to implement the plan. This involves putting the strategy into action and monitoring progress regularly to ensure that the project is on track.

5. Finally, the fifth step is to evaluate the results of the project. This involves assessing the outcomes against the objectives and goals to determine the effectiveness of the project and identify areas for improvement.

2. Considering the above, it is recommended that the Government should consider the possibility of having been a victim of a crime, and should consider the possibility of having been a victim of a crime.

MYRCHEW ANDREW MAESYMEC  
APRIL 30, 1967  
FM 170 - Experience 18-1

Enclosure No. 1, Page 1

During the period November 1961 to the present, I am employed by the Central Intelligence Agency, located in Washington, D. C.

I lectured, conducted seminars, and advised on the operations of photography, cameras, lighting, printing, processing, and editing.

On an independent basis I performed complete black and white and color, still, and motion picture photographic assignments. Utilized, as appropriate, combinations of cameras, and other gear which included ultra-high speed cameras (1-5 thousand frames per second) plus compatible stroboscope lighting components, varied mirror, filter, and mounting devices.

Advised on the installation and operation of photographic set-up and rendered the technical decisions relative to the required optical, mechanical, and electronic adjustments.

Commendations:

I was awarded the 'Certificate of Commendation' by direction of the President of the United States, for meritorious service with the Central Intelligence Agency, on January 9, 1963.

Works:

'Come Along to Ethiopia' by Joseph Simonson was published in 1968 by F. S. Denison and Co., Inc. Pictures utilized in this historical-pictorial endeavor were my works and credit is given accordingly in the introduction. (Library of Congress 67-28678)

FM. 171 - Experience 18-2

Enclosure No. 2, Page 1

During the period 1964 through 1969, I was employed by the Publications and Services Branch, Office Assistant Chief of Staff for Intelligence, Headquarters, Department of the U. S. Army, Washington, D. C.

Mission

Use, setup, arrangement of photographic equipment, techniques, and processes.

Develop, adapt, and create the foregoing in order to be responsive to unprecedented situations that require photographic equipment for situations of extreme conditions. (Weather, radiation, explosion, etc.). Create training films to deal with specific subjects.

Conduct training classes in basic and advanced photography, motion picture, and laboratory procedures.

Operations

I was responsible for the direction of technician/specialist photographers, concerned with reproduction of film using the most advanced Eastman-Kodak, Bell and Howell, and Houston Perilex printing and processing equipment.

During this phase there was a demand for high production and extreme accuracy in a minimum of time. My responsibilities required me to adapt to changing conditions under adverse conditions to achieve objectives that were required in a matter of hours.

I developed workload schedules based on task/mission requirements, available manpower, and the degree of skill available. The changing tasks and mission objectives required a maximum ability on my part to train personnel to meet the requirements of operating officials.

I established and conducted training classes in the operation and maintenance of equipment.

I developed workload schedules based on task/program/mission requirements, priorities, available manpower, and the degree of skill available.

MYCLOS AW ANDREW MANSYMEC

PM. 171 - Experience 18-2

Enclosure No. 2, Page 2

Broke down each task into specific operations and handling elements, established a sequence of operations compatible to economical, efficient, and timely reproduction of motion picture film. I applied labor standards by utilization of labor standard data to each work increment to be performed.

I was responsible for determining the overall manpower requirements, equipment, materials, etc., necessary to accomplish the objectives of the organization under my jurisdiction.

I maintained progress chart status of all assigned task, program, established priorities, and directed technician in proper sequence to prevent production delays, work stoppage, and disruption of work schedule.

I reviewed quality and quantity of work produced by means of sampling, inspection, etc.

Accomplishments - Commendations

(1) Awarded 'Certificate of Appreciation', Department of Defense, Military Assistance Institute.

"As the termination of your active service draws near, I desire to express my personal appreciation for the splendid service you have rendered the Military Assistance Institute during the past two and one-half years. Whenever you were called upon to serve as a guest briefer for Officers assigned to duty with the MAAG-Ethiopia, you cheerfully accepted this responsibility, in addition to your regularly assigned military duties.

Your expert knowledge of the culture, geography, history, and living problems in this area was extremely beneficial to U. S. Military personnel stationed with the MAAG.

The successful manner in which you presented these subjects, (illustrated with colored slides of scenes professionally photographed by you) materially aided our students to adjust themselves to conditions encountered in living in an unfamiliar country and in becoming productive at an early date after arrival at their new station.

(2) Fitness Report

"I have known Mr. MYROSLAW A. MAKSYMIEC for more than seven years. For approximately two years (1954-1956) during that period he worked under my direct daily supervision in the Office of the Army Attache, American Embassy, Addis Ababa, Ethiopia. Since that time I have maintained periodic contact with Mr. (then M/Sgt E-7) MAKSYMIEC.

Although Mr. MAKSYMIEC's primary job was photographer and chief of the photographic laboratory while working with me in Ethiopia, he was also in charge of supply and transportation for the Office of the Army Attache.

In the field of photography I consider Mr. MAKSYMIEC to be one of the outstanding photographers in the Armed Services of the United States. His work with me was consistently superior both from a technical viewpoint and from a photographic result viewpoint. None of the assignments that I gave Mr. MAKSYMIEC were routine, nor were they easy. Favorably they involved considerable ability, tenacity, diplomacy, and judgment. He always accomplished his mission. His detailed captions were usually accurate and valuable, showing a keen insight into the subject (human or machine) being covered.

His work in photography was so outstanding that at one time at Addis Ababa, at a request from TIME - LIFE Magazines, I consented for Mr. MAKSYMIEC to complete a photographic report commenced by Mr. Alfred Eisenstadt, one of the outstanding photographers in the U. S. Several pages of pictures taken by Mr. MAKSYMIEC appeared with the article in LIFE Magazine. His work also was commended personally by the U. S. Ambassador to Ethiopia and by the Emperor Haile Selassie I, who awarded him a gold medal.

Mr. MAKSYMIEC's many skills include outstanding technical ability in every phase of operations in a photographic laboratory.

I have been informed that while working in Washington, at the Pentagon, Mr. MAKSYMIEC has continued to serve the interests of the United States. He has been a lecturer at the Military Assistance Institute, and in that capacity has been officially commended by Brigadier General Henry C. Newton, Director of the Institute.

While I was attending the U. S. Army War College at Carlisle, Pennsylvania in 1938-1939, Mr. MAKSYMIEC was of considerable assistance to me in the detailed preparation of my thesis: "The Greater Somaliland Movement, a study in the strategic significance to the United States".

Based on my personal observation and knowledge, I feel that Mr. MAKSYMIEC is eminently qualified for specialized work in the field of intelligence. He would be particularly valuable in all phases of photography, and in collection, evaluation, or dissemination of intelligence. His investigative ability, particularly in the fields of map reading, geography, order of battle, or technical subjects is outstanding. He has the unique ability to collect and assemble pertinent facts and to prepare clear and concise written reports."

Enclosure No. 3, Page 1

During the period 1954 through 1956, I was assigned by Army Attache System, G2 Intelligence, Department of the Army, to conduct, direct, establish photographic center and perform specific photographic assignments in Ethiopia, Africa.

Mission and Tasks

During this period I directed and participated in photography of selected areas, equipments, training film, and selected subjects.

I modified and planned the installation of photographic equipments that were faced with situations of excessive heat in some instances and of severe low temperatures in others. These conditions were also subject to abnormal influences.

It was essential that I had a thorough familiarity with the mission objectives that would permit me to plan the photographic recording and reporting on film within a minimum of interference with program operating sequences. This required me to participate with operating officials, engineers, scientists, as a member of the team in order to define the capabilities and limitation of cameras and equipment to the total planning of the specific program. This broad knowledge permitted me to utilize my abilities, imagination, and creative ability to fully develop the photographic aspects.

I determined the kind of film, position, camera coverage, background, etc.

~~I developed the workload schedules based on mission requirements, priorities, manpower, and the degree of ability available.~~

~~I reviewed quantity and quality of work performed by means of visual inspection and by discussions with team leaders, particularly where problem areas existed or the mission was one with unusual scope and objectives.~~

I was responsible for the procurement of photographic equipment and supplies necessary for the assigned mission. This responsibility also included the repair and maintenance of all equipment's in use.

MYROSLAW ANDREW MAKSYMIEC

I maintained progress charts for all tasks, programs, missions, that indicated the status of installation, filming, reproduction actions for each task/program.

I directed the reproduction phases of the foregoing filming as indicated in Enclosure No. 2.

Artistic Segments

I exercised artistic and creative ability in using photography as a means of communication of information, historical, splendor, etc., to fulfill educational, military, international objectives.

I exercised control of the settings, actions of the event to be photographed. I suggested actions/behavior of principals; selected backgrounds; rehearsed actions prior to photographing events.

Training

I conducted orientation and briefing courses for U. S. personnel in basic-advanced photography and basic-advanced laboratory techniques.

Accomplishments - Acknowledgements

(1) Transmittal of Medallion to Myroslaw A. Maksymiec, U. S. Army, G2:

"It is a genuine pleasure to forward herewith a gold medallion which His Imperial Majesty, Haile Selassie I, Emperor of Ethiopia, sent to the American Embassy herewith the desire that it be transmitted to you by this office. His Imperial Majesty, upon giving the medallion to the Charge d'Affaires, said that he wished you to have it as a token of his appreciation of your work.

Since high recognition reflects very honorably on your period of service here in Ethiopia and is a fine recommendation of your professional talents, I am particularly glad to add my own congratulations to those of His Imperial Majesty and to extend my sincere wishes for continued success in your career."

(2) Letter of Appreciation - Sent Department to Department of the Army:

"Whether this is requested or whether you can appropriately pass this letter on to officials concerned in the Department of Defense I do not know. But I do want to write the strongest word of commendation of the work of Master Sergeant Myroslav A. Maksymiec. Sergeant Maksymiec was associated in the Office of the Army Attache here in Addis Ababa, particularly for the purpose of photographic coverage.

It would please me if you would be able to forward this letter of mine to appropriate officials in the Defense Department. I know that Colonel John D. Townsend, who was the Army Attache here during practically all of Sergeant Maksymiec's service, would agree with me both in my estimate of the Sergeant's usefulness and efficiency and in seeing to it that this letter of commendation be enclosed in the Defense Department.

At the present time Sergeant Maksymiec is assigned in the photography laboratory in the Pentagon. Undoubtedly he is making a fine contribution there. I do know that he was of vast importance to our total American operation here in Ethiopia, not only military, while he was stationed with the Army Attache in Addis Ababa. He is a competent, co-operative, and persistent workman in attaining desired goals. His photographic output is way above average, both in quantity and quality. The Army Attache system, based on my observation of Sergeant Maksymiec's work in Ethiopia, stands in very great debt to him."

(3) Letter of Appreciation. Corps of Engineers, U. S. Army Map Service to Department of Army - Intelligence:

"During his recently completed tour of duty in the office of the Army Attaché, Ethiopia, M/Sgt. Myroslaw A. Maksymiec, was able to make an outstanding contribution to the Engineer intelligence and photography holdings on that country. The material he acquired and gave to the Engineers for reproduction was of quality and quantity far exceeding that which has normally been received from similar sources.

Considering the nature of the country in which M/Sgt. Maksymiec served, the material acquired could only have been obtained as a result of an enterprising, persistent, and determined effort on his part.

A great number of the photographs taken by M/Sgt. Maksymiec have been retained by the Engineers to be used in Engineer intelligence studies. Favorable comments following his debriefing were due largely to the accurate and current information supplied by him.

Since satisfaction of Engineer requirements undoubtedly constituted only part of the overall duties of the Attaché, Ethiopia, M/Sgt. Maksymiec's alertness and enthusiasm towards collection of materials of Engineer interest are greatly appreciated. He has made an invaluable contribution to the Engineer intelligence and mapping effort.

It is requested that this letter be made a part of M/Sgt. Maksymiec's official records."

Enclosure No. 1, Page 1

During the period 1950 through 1953, I was the Supervisory Photographer for Chief of Photographic Laboratory for the Department of the Army, Office of the Army Attache, American Embassy, London, England.

Mission

Direct the technical operations of Technical Photographers and Photographic Laboratory Technicians. Operations included all of European Theater.

Training

I conducted regular seminars on all aspects of photography and photographic laboratory techniques for personnel assigned to the European Area.

Operations

I performed the basic operations as indicated in Experience 18-3 - Mission-Tasks and Artistic Segments. In addition to the foregoing I supervised specialists and technicians' efforts in high volume reproduction of film that averaged over a million feet (black/white/color) of motion picture film.

Equipment utilized was the latest Eastman-Kodak, Bell and Howell, and Houston Fearless printing and processing equipment.

In directing this effort I worked in close coordination with motion picture producers in the planning and organizing the photographic aspects of specific task/program. It was my duty to plan work and secure artistically perfect photographs that will permit achieve attainment of task/program objectives. This required the ability and judgment in varying processes, also in the utilization of equipment that transcended the normal processes and procedures in order to produce effects that would spotlight the task/program objectives which the photograph was designed to produce.

#17- Special Qualifications and Skills

(D) 1. At the close of my assignment to the Office of the Army Attache, Addis Ababa, Ethiopia, I was awarded the Gold Medalion (Order of Ethiopia) by Emperor Haile Selassie for extraordinary photography accomplishments concerning the American Embassy and the Emperor (1953-1955).

2. Also on the personal recommendation of Alfred Eisenstaedt, Life Magazine's head photographer, I was contracted by Life Magazine to cover the Silver Jubilee of Emperor Haile Selassie (1955). This included all photography work and literature concerning the Jubilee. This work appeared in Life Magazine issue November 20, 1955.

3. While assigned to the Office of the Army Attache in London (1950-1953) covered special assignments for the American Embassy, including the Ambassador's presenting of his credentials to the Court of St. James; King George VI's funeral; and Queen Elizabeth's coronation.

All of the above 1, 2, and 3 were photographed and processed by myself up to the finished product.

4. Concerning my recent photographic work, I won 1st, 2nd, 3rd, 4th, and 5th prizes in the Military District of Washington Photographic Contest 1960. Also won 1st prize for Ft. Myer, Virginia, photographic contest 1960.

5. Because of my extensive knowledge of Ethiopia, I have been lecturing at the Foreign Service Institute, Arlington Towers, Virginia, from 1956 to the present time. This also included the showing of my personal color slides on Ethiopia at all of the lectures.

6. Have also had my photos accepted for publication in TRAVEL Magazine and have appeared in numerous issues.

7. Shot official aerial photos of the Pentagon Building and surrounding areas in 1952.

#17-B - Cameras and Laboratory Equipment that I am extensively familiar with:

Cameras

1. Leica 35 mm
2. Koroan 35 mm
3. Kodak 35 mm
4. Minox Miniature
5. Rolleiflex 6 x 6
6. Speed Graphic 4 x 5
7. 8 x 10 View Cameras (Kodak)
8. 70 mm Roll Camera
9. K-20 Aerial Camera
10. 16 mm Turret Movie Camera

Lab Equipment

4. Robertson Copy Camera
5. Omega Enlarger (4x5) Auto Focus
6. Leitz Foca-Mat Model III C Auto Focus
7. Morse Contact Printer (Aerial Type)
8. Jomaco Power Contact Printer

Prior to entry into military service worked for Borgeis Studios, Manchester, N.H. 1935 to 1941 as laboratory technician. In 1945 resumed photography career in U.S. Army and continued in this field up til the present time. Skills were developed in the photographer and photographic laboratory fields and rose to my present rank of Master Sergeant. My skills as a photographer include an operating knowledge of all characteristics of cameras and equipment used in Army photography and the theory and practices of still and motion picture photography. For example, some of my duties include:

1. taking still photographs for news releases, publicity, medical and historical value
2. taking still and aerial photographs and motion pictures
3. taking of motion pictures for use in preparing training, information, and historical film
4. supervising the taking of still and motion pictures
5. assisting superiors to establish priorities, scope of missions, and work schedules
6. assigning photographers to mission on basis of qualifications, criticising completed work in discussion with photographers, pointing out technical and artistic deficiencies and methods by which such defects can be avoided

My qualities as a senior N C O in this field include knowing the capabilities and limitations of subordinate personnel, being very able to instruct and demonstrate proper camera techniques, and be able to constructively criticize and evaluate the composition of photographs and motion pictures.

My skills in photographic laboratory field include a knowledge of all the operating characteristics of Army photographic laboratory equipment; the techniques of both conventional and semiautomatic photographic processing of still and motion picture black-and-white and color film; the ability to demonstrate and instruct the appropriate photographic laboratory techniques and processes; the ability to organize and supervise operation of a large Army photographic laboratory; the knowledge of operating procedures and installation and organizational maintenance techniques pertaining to Army photographic laboratories; and am able to supervise, plan, and conduct training in all phases of photographic processing. Am exceptionally skilled in making copy negatives of all types, performing line ~~xxx~~ work, making line negatives and half-tone negatives, view graphs, 35 mm slides and 2 1/4 x 3 1/4 slides.

With regards to my physical qualifications, I have very good near and far vision, good eye-hand coordination, good manual dexterity, and very good color vision. My hearing is above normal and my speech clear and well annunciated.
